Don't forget to keep an eye out for our wildlife trail arrows pointing you in the right direction

The walk is approximately a mile long and there are parts that are not buggy friendly

Leaving reception, head through the Fairy Garden; watch you don't hurt our friends with spots whilst you're looking out for the colour in the trees.

Following the path the tractor takes, walk towards Farmer Nick's shed, can you spot a flash of red in the trees?

Walk across in front of Farmer Nick's big shed and into the Ravine heading towards Meadowside. Say Hello to our friend with his home on his back.

Climb the stile into Meadowside and down through the corridor past borderlands, look out for a sly animal watching the chickens from up high.

Carry on along the corridor and find the deer field, is there anything hopping around with them?

Leaving the deer field head around towards Riverside and loop around the lake, is there something keeping watch of the fish?

Follow the Tractor Path back past Trackside and turn right towards the footbridge. Is anyone keeping the trolls company under the bridge?

Look out for our friendly wild fowl bobbing on the lake.

Carry on back along the lane towards Valley and Village View, can you spot anything commonly seen in Trafalgar Square?

Walk over the footbridge and straight ahead to the orchard. Can you spot our friend stealing the apples?

Head along the wilderness path behind the play area to the limit of Coombe Mill. Is anything after your jewels?

Finished Well done!

Go up behind Heligan and Pencarrow, can you spot a small snuffling animal and her baby asleep in the car park?

Head towards the end of the lane and down the road stop to have a look at the Coombe Mill Railway, is there a wise eye watching over you?

Please don't forget to leave the gates as you find them. Thank you.
